Subject: LWG Responses to EPA's Fate and Transport Model Comments

Valerie -

Please pass on to EPA. Thanks.

Chip and Eric - Attached are responses to EPA's October 15, 2007 comments on the Draft Chemical Fate and Transport Model Development and Data Gaps Identification Report. These responses include LWG responses to all of EPA's comments on the fate and transport modeling report. The LWG also prepared responses for only those comments relevant to potential future data needs, and this was submitted to EPA on December 14, 2007. The responses attached also include those responses submitted in the earlier response document.

Please let me know if you have any questions.

Carl
